Coastal Protection in Germany

Based on the long years cooperation and the mutual understanding, the Coastal Engineering Research Group of University of Rostock and the Department of Hydraulic and Ocean Engineering of National Cheng Kung University have organized with joint efforts of Coastal Ocean Monitoring Center this International Course under the support of the Summer School Program of the German Academic Exchange Services (DAAD). University Professors and specialists from German Federal Authorities will introduce the German experiences in the field of coastal protection.

In the support of DAAD, the course is designed to provide the participants with an understanding of the German approaches to coastal protection and the experience gained in the field. It covers the following topics:

**Part I: Coastal Protection at the German Baltic Sea (15 Hours)**
- Lecture (6 hours) - Time: September 24, 2016 - Location: National Cheng Kung University
- Discussion (9 hours) - Time: September 25, 2016 - Location: National Cheng Kung University

**Part II: Coastal Protection at the German North Sea (15 Hours)**
- Lecture (6 hours) - Time: October 1, 2016 - Location: National Cheng Kung University
- Discussion (9 hours) - Time: October 2, 2016 - Location: National Cheng Kung University

**Part III: Coastal Protection in Germany (6 Hours)**
- Lecture (6 hours) - Time: October 3, 2016 - Location: National Cheng Kung University

**Instructors (Tutors):**
- Dr.-Ing. Peter Fröhle
- Prof. Dr.-Ing. habil. Sören Kohlhase
- Dipl.-Ing. Frank Thorenz
- Prof. Dr.-Ing. Nicole von Lieberman
- Dipl.-Ing. Knut Sommermeier
- Dr.-Ing. Karl-Friedrich Daemrich
- Ass. Prof. Dong-Jing Doong

**Organizers:**
- University of Rostock (Organizer)
- University of Rostock
- NLWKN Norden
- TU Hamburg-Harburg
- STAUN Rostock
- University of Hannover
- National Taiwan Ocean University (Co-Organizer)

Enrollment: Ms. Changhui Hsu, National Cheng Kung University, Tel: 06-2744058 ext. 14

Contact Person: Dr. Solomon, Tel: 0939-504865
